#### C. The Curricular Affairs Committee has adopted the following policy statement regarding proposals to abolish programs:

The Curricular Affairs Committee recognizes that proposals to abolish academic programs have academic quality and resource aspects in addition to those of state and regional needs. When a recommendation for program elimination or curtailment is routed directly to the CAC from the Vice President for Academic Affairs or the appropriate Dean or College Faculty the following guidelines shall apply: Where no reasons for abolition are presented to the CAC which relate to the lack of academic quality of the program, either with regard to standards uniquely pertinent to the program

or with regard to the quality of the program relative to all programs at the University, the CAC must disapprove the abolition of the program. Where reasons are presented for abolition related to the lack of academic quality of a program, the CAC will balance the academic value of the program with the resources saved and/or the resources necessary to raise the academic quality of the program, and approve or disapprove the abolition of the program accordingly. In all cases, the decision by the CAC will be facilitated by the opinion with regard to academic quality of the pertinent college faculty and college curriculum committee. When a recommendation for program elimination is forwarded from the Program Review Committee, the CAC shall review the recommendation in consultation with a member of the Program Review Committee, express its opinions, and forward the recommendations and opinions to the Faculty Senate within three months.
